WHY CHOOSE MPP SECURITY?

With offices in Los Angeles, Orange, Riverside and San Diego Counties, Maximum Protection Security is a full service, multi-level security firm.

In addition to fully licensed, carefully selected and trained security guards, MPP offers personal bodyguards, courier and envoy escorts and fully licensed private investigative services. MPP president Art Menaldi has structured his company to offer the widest possible range of private security services, promoting and upgrading the licenses of motivated employees and rewarding individual contributions to the company's success.

During the week of rioting and civil disturbances in Los Angeles and Long Beach, MPP security was recognized as one of the most dependable and capable private security firms in the area. Endorsements for the quality of protection and service offered by MPP have been received from many sources including McDonalds Restaurants, Residence Inns, Surf and Sand Hotel of Laguna Beach and Temple Beth Zion-Sinai of Lakewood, California.

Graham Raal-Brook, Vice President of Temple Beth Zion writes...

Your guards were prompt, polite, yet firm where required and performed their duties to everyone's satisfaction. Their presence gave us a feeling of security in a neighborhood which is certainly not one of the safest.

Sylvia Bula, Director of the Anaheim Cultural Arts Center writes...

Your company provided security for very valuable sculptor art work on Saturday, April 4th and Sunday, April 5th. Your personnel were quiet, attentive and well groomed. We are truly grateful for your assistance in this matter.

Gladys Garcia Cavoros, Manager of Vanowen Garden Apartments in North Hollywood writes of MPP Security...

The several months that they have been serving this apartment complex, they have made an outstanding fight against drug sales and "What used to be", gang problems.

These recommendations represent a sampling of the comments from satisfied accounts MPP Security has already serviced. We hope you will allow us to add your name to our list of satisfied customers.

"Force" is defined as strength . . . power . . . an intense effort. M.P.P. Bodyguards Security force is made up of men and women who exert intense effort to provide you with the protection you need. The equipment they use provides the strength and the power.

The most sophisticated equipment enhances every dimension of security work. All vehicles as well as personnel are equipped with advanced radio communication capabilities, in surveillance and airlift operations. All equipment and personnel are prepared to protect you around the clock and throughout the year. M.P.P. Bodyguards has performed intelligence gathering and undercover investigations throughout the world and the United States.

Art Menaldi and Manny Vorgeas and the entire elite corps of M.P.P. Bodyguards are results-oriented, highly communicative and meticulously organized. All the M.P.P. Bodyguards are dedicated to rendering the highest possible professional services, and we welcome the challenge of each new endeavor.

Vulnerability of security when your life or your company is on the line, it's not a difficult choice. We're here when you need the force of full-service security. At M.P.P. Body guards, we're on your side and can provide the most effective security measures to control the most demanding situations.

CONSULTING AND AUDITING SERVICES

Through its consulting and auditing services, M.P.P. Bodyguards' primary objective is to identify the security needs of each client, location and situation. For example, we assist large businesses that have vested interests in foreign countries through the establishment of an overall security program. This program is designed and developed to be generic to the organization, and to be completely production-oriented. The program's primary objective is to protect the company's interests at all times, but primarily during these times of international unrest.

One of the industries best suited to M.P.P. Bodyguards' consulting and auditing services is the motion picture industry. Our personnel have extensive backgrounds working in all aspects of film related security, from location shooting to crowd control, and all other contingencies. Our services include identification and documentation and insufficient security measures, identification, documentation and establishment of secure access to and from the set by personnel and equipment.

In addition, our experience in all facets of high-level security work gives us the expertise the filmmaker desires when conceptualizing scenes of security-related situations. Through M.P.P. Bodyguards' consulting, filmic depictions of any situation from plots to hostage rescues are produced convincingly. We advise on the dress, weapons and actions of the actors and coordinate all aspects to effectively portray a picture of realism.

Whether providing consulting and auditing to protect in real situations, or to advise in the direction of invented situations, M.P.P. Bodyguards has the experience.

To Whom it May Concern:

During the recent Los Angeles riots, our Advertising Firm hired Security Officer Joe David Jimenez, through MPP Security, to protect our building from the threat of looting and vandalism. Our employees had been sent home on April 30th as the violence moved closer to our area, and Joe spent four tense, sleepless nights making sure the building was secure during our absence.

The fact that Joe managed to show up for duty at all is a testament to his dedication. He drove up from Newport Beach during the worst hours of the violence, even braving a group of thugs in Hollywood who threatened to attack his car with bats and tire irons. Joe drove on and arrived not only unscathed, but on time.

While on duty, Joe was instrumental in the arrest of a looting suspect who had robbed a neighboring business and was fleeing through the area. He captured the perpetrator, without assistance, and held him until the authorities arrived.

Each of the several employees who stopped into the building over the weekend had nothing but glowing praise for Joe. I met him personally, as well, and found him extremely well-mannered and committed to his job.

I think I can safely speak for everyone at Aspect Ratio when I say that we were all thankful that he was protecting our building during those uncertain, troubled days, and that we will definitely contact him for any of our security needs in the future.

If you have any questions, please contact me at (213) 467-2121.

Gentlemen:

Although some time has lapsed since we engaged your services in October of 1990, I wanted to formally thank you for the excellent performance your four company representatives gave to us on that day. Restructuring a company almost always requires letting people go who have served for many years. October 22nd was no exception and proved a very hard task for me personally. However, my itinerary went very smoothly and special thanks is due to the diligent performance of your representatives. The four gentlemen who were employed with us for the entire day remained very courteous and patient throughout.

Again, please convey my sincere appreciation to each of the four employees in question. You should be very proud to have them on your team.

Sincerely,

Their aggressive but professional attitude has made a once drug and gang related property into a clean, all family complex.

Their cooperation with the Los Angeles Police Department, and The District Attourney for the County of Los Angeles, has made a great pathway for keeping this complex safe.

Our residents have shown great appreciation for the services especially from, Jonathan P. Brown, Dominic Menaldi, Kenneth Warta, and Travis Butts. These Officers have given 110% to this complex.

RE: Joe David Jimenez

Dear Mr. Menaldi:

It is not often that I am afforded the opportunity to commend an individual for a job well done, and I am very pleased to be able to do this for our Security Officer Joe David Jimenez.

Officer Jimenez has been at Valencia Gardens for a little while now and has time to learn the routine and acquaint himself with some of the residents and the rules and regulations on the property. He has been very thorough in his patrols and assisted in preventing several car breakins and would be taggers from defacing the property because he has been highly visible.

On May 26, 1993 before his actual shift began, Officer Jimenez had the opportunity to display his professionalism and serious attitude towards his position here at VG. He handled himself in a very controlled authoritative manner and kept an otherwise heated situation from possibly becoming violent. He displayed concern for my safety as well as my being inconvenienced by unhappy residents. He has been the only guard to actually come to me and ask if I am happy or unhappy with the service he has been providing and if corrections needed to be made he would accommodate me as much as possible. This is most definitely a rare find.

I hope you will pass this message on to him and give him a copy of this letter for his portfolio. And thank him and let him know we most definitely appreciate his service.

If you have any questions feel free to contact me.

Very truly yours,

Dear Mr. Menaldi,

First of all, I want to thank you for providing your company's bodyguard services for our live remote show "Talk 2" from the Anaheim Hilton, on November 30, 1993. Your staff was very helpful and professional, and were very useful for our purposes.

As you know, we had Rickey Henderson, Bill Walton, and Bob Costin on the show and it was imperative that we had extremely tight security. The bodyguards you provided us with, made sure all the necessary precautions were taken to provide our guests with security and protection.

I especially would like to take this opportunity to commend one of your employees, Joe David Jimenez for his professional handling of the situation. Because of the cable convention that was taking place at the hotel, it was important that everything for our show went smoothly. Joe made sure that all our guests were taken care of and that we would not be bothered by any unexpected security threats.

Once again, I want to thank you for all your assistance with our show, and if we are in need of security in the future, I will not hesitate to call upon your services and Mr. Jimenez.

HAMILTON COVE

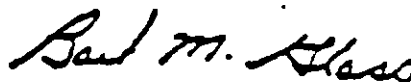

To Whom It May Conceren,

June 13, 1994

As of January 1, 1994 , M.P.P Security Service has handled our security needs at Hamilton Cove on Catalina Island. Hamilton Cove is a private guarded gate, residential community. We have 185 Individual ocean front villas with road access as well as ocean access.

Mr. Garry Spagg is entrusted with our security needs and he and his crew have performed flawlessly for us. His duties include security management of his crew and administration thereof. Every person entering or departing is screened and tracted ,as well as all vehicles. Our security is also reponsible for all fire alarm systems as well as burgler alarms. Mr. Spagg has been instrumental in setting up new security cameras and has been a wealth of knowledge in this field. Mr. Spagg not only handles our gate entry but also has the difficult task of tracking the coastal access and all boat traffic to and from Hamilton Cove via our coast. In short M.P.P. Security and particularly Garry Spagg are assets in which Hamilton Cove would be hard pressed to replace.
